# RALPH INU'S EXPEDITION

Ralph Inu is an ambitious but consistent project which operates within the Binance Smart Chain. Our vision, strategy and everything we do is based on complete transparency and facts. We are thrilled to be a trendsetter in what a project should be and we are excited to showcase what we are capable of as our team and our community unite.

# INTRODUCTION

Ralph Inu is a decentralized token with a bullish drive led by its community and CEO.

Our goal is to bring back the old school ways of crypto, which is community first!

We are going to make an undeniable imprint within the Binance Smart Chain Network.

The objective is to grow from the ground up as a unit combining our experience with heart,

and the foundation of the project, which is our community!

Here at Ralph Inu, we strive to deliver at a much higher standard than the average community driven token, and we will do that by introducing features such as token staking, and an NFT

release shortly after launch. Once we accomplish this, we will then begin working towards launching our NFT staking system & a play to earn game, this is just the tip of the iceberg for

Ralph Inu, and as we continue our journey, there will be much more usabilities to come!
